### TURN OVER TO LEARN MORE ABOUT THE ORGANIZATIONS!

# LEARN MORE ABOUT THE ORGANIZATIONS!

## Action Points

## Mission Statement

- Invite CWAC to give a zero waste presentation to your group.
- See our Fall 2021 Newsletter, The Search for Sustainability-CWAC Members Demonstrate Sustainability.
- Ask CWAC to present to your municipality about banning coal tar pavement sealants.

The Clean Water Action Council of Northeast Wisconsin Non-Profit Corporation is organized to promote a safe, healthy, and sustainable environment in northeast Wisconsin, to educate and inform members and the public on environmental issues, and to act on behalf of members and the public to protect the environment and human health. All operations are exclusively for charitable and educational purposes and for the promotion of environmental justice.

- Reduce fossil fuel use in transportation
- Reduce fossil fuel use at home
- Talk about climate change and "tell your climate story," including what you know, what you are worried about, what you are doing?

Climate Change Coalition of Door County is a non-partisan organization that through education, outreach and civil dialogue increases public understanding of climate change and its many detrimental impacts at home and around the world. Our objective is to inspire prompt action by individuals and policymakers at all levels to address the causes and challenges of climate change and to help communities adapt to its impacts.

- Think about policy.
- Research and support candidates who work for wise environmental policy.
- And, get out in nature.
- Come for a hike at Crossroads!

Crossroads at Big Creek inspires environmental stewardship in learners of all ages and from all backgrounds through education, research, land restoration and outdoor experiences.

- Support your local and regional environmental organizations.
- Attend town, village, and county meetings and speak out on environmental issues.
- Vote for environmentally concerned legislators.

For over 50 years DCEC has been an integral part of Door County's environmental advocacy fabric. Our mission is to protect Door County's natural area through effective land use measures, including zoning, other regulations, and private stewardship. The maintenance of the basic components of our environment in Door County: clean air, surface water quality, groundwater quality and soil integrity.

Door County Land Trust

- Reduce your climate impact by using more fuel-efficient transportation.
- Buy more local goods and products.
- Plant native trees and grasses.

To protect Door County's exceptional lands and waters...forever.

The Nature Conservancy

- Support (financially, volunteering, membership) one or more of the organizations on the panel (and TAP) and use information on their websites to learn what you can do
- vote with climate in mind and with your wallet regarding products and vendors
- Share with your family & others what you've learned tonight or from the websites of these organization regarding what we and they can do.

To conserve the lands and waters on which all life depends.

- Volunteer to help raise awareness at our programs throughout the year. Education Team members will be trained to interact with visitors to ODBS and at off-site programming by learning about our resident raptors as well as their wild behaviors and habitat.
- Tap into your personal network of friends & family to identify organizations, schools or community groups in your area that would benefit from an educational, environmental raptor program.
- Create more & stronger habitat for prey animals

The Mission of the Open Door Bird Sanctuary, with its two-fold purpose, is to raise avian awareness while inspiring people to co-exist with the natural world that surrounds them. For those birds unable to be released, the Sanctuary will provide a safe and caring home in which they can share our mission as ambassadors in education and environmental management.

- Stay informed by participating in events like this. Bring friends to these talks/presentations/events to grow the network
- Volunteer with local organizations. Whether it's planting trees with an organization or participating in citizen science opportunities, volunteerism makes this community strong
- Contact elected officials. It can feel like a lost cause sometimes, but our elected officials need to hear from the community and they need to held accountable. VOTE VOTE VOTE

The mission of The Ridges is to protect the Sanctuary and inspire stewardship of natural areas through programs of education, outreach, and research

- Ask the Evers and Biden Administrations to reject Enbridge's Line 5 proposal
- Ask our Senators to support wildlife protections with the Recovering America Wildlife Act (RAWA)
- Research candidates and make a plan to vote on or before November 8 (myvote.wi.gov)

Explore, Enjoy, and Protect the Planet
